

ECE Pledge

I am an Electronics Engineer, in my profession, I take deep pride, but without vainglory; to it, I owe solemn obligations that I am eager to fulfill. As an Electronics Engineer I will participate in none but honest and legal enterprise. To him who has engaged my services, as employer or client, I will give the utmost of performance and fidelity. I dedicate myself to the analysis, synthesis and dissemination of engineering knowledge and practice.

Zealous of the high repute of my calling, I will strive to protect the interest and the good name of any engineer that I know to be deserving; but I will not shirk, should duty dictate, from disclosing the truth regarding anyone who has shown himself unworthy of the profession.

To my colleagues, I pledge in the same full measure I ask of them, integrity and fair dealing, tolerance and respect and devotion to the standards and the dignity of the engineering profession that carries with it the obligation to serve humanity with complete dedication. **SO HELP ME GOD!!**
